Collection and Processing: Room for Improvement and Opportunity

Scott Mouw, The Recycling Partnership SERDC Webinar Series
July 13, 2022

We mobilize people, data, and solutions across the value chain to unlock the environmental and economic benefits of recycling and a circular economy.

Engaging the Supply Chain

^{*} Member Board of Directors

State of Residential Recycling

Foundation in place; massive room for improvement

System delivering 1/3 of available material to the recycling economy

40% of households lack equitable access

Next challenge: Tackling recycling behavior!

Single Family Opportunities

Challenges facing cities

Labor, competing priorities, etc.

Access and Carting

Losses to make up; new places to gain

New Orleans, Mobile, Jackson, western Virginia, Chesapeake

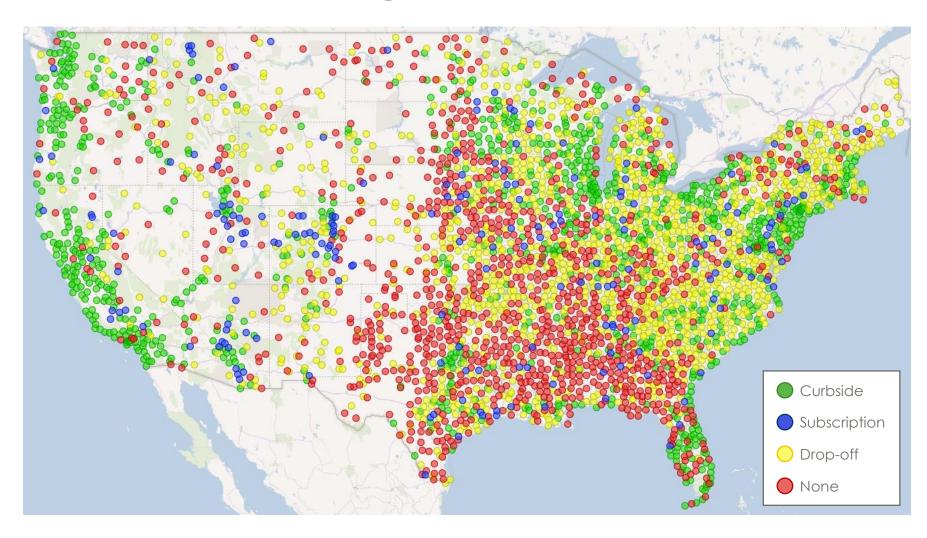

Subscription and service schedules to fix

Drop-off upgrades

Boosting carted programs around recycling behavior

Over 9,000 Programs Researched

Covers 30,000 communities

Includes:

- Type of program
- Type of collection
- Type of bins
- Acceptable materials in each community
- Updated quarterly
- All communities and counties over 2,500 households

MRF Opportunities

Blended values driving investment

Key areas of work to do:

Saying yes to polypropylene

Capture upgrades

Prepping for other sorts

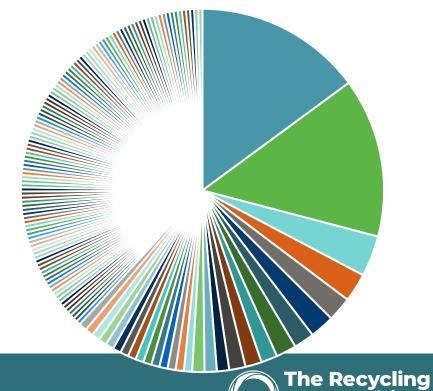

Equipment innovation and deployment

Automation, automation, automation

Basic maintenance/operation

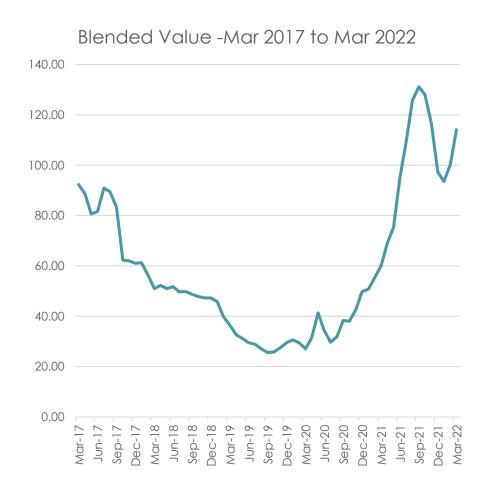

Variable MRF picture presents challenges

Multifamily Recycling Potential

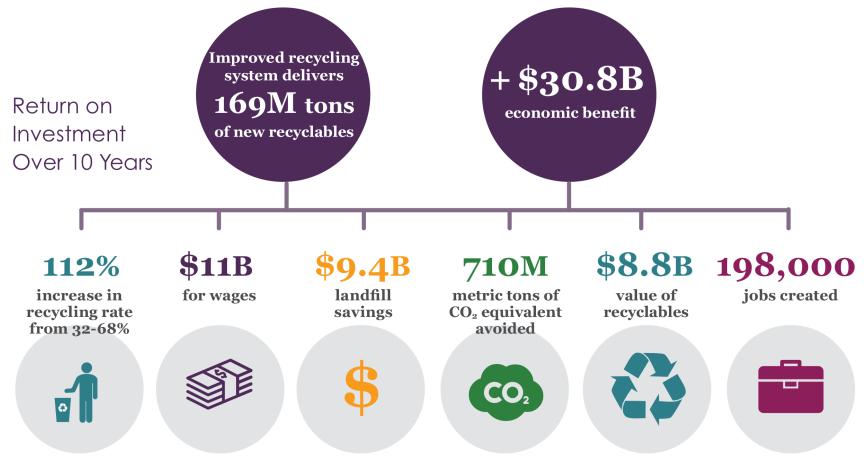

- 13 MM units lack on-site option
- 80% capture would yield 4MM new tons
- SERDC-area communities making progress:
 - Atlanta, Orlando, Raleigh, Sarasota County
- Mix of containers and approaches
- Local policy as a key driver

Household Capture (volume) and Participation (regularity)

It all adds up.

Why SERDC's Work Is So Important

Thank You!
